2nd ACM SIGPLAN Program Protection and Reverse Engineering Workshop (PPREW)

WORKSHOP PROGRAM

8:00 am	Breakfast
9:00 am	**Welcome / Best Paper Award**
9:15 am	**Keynote Address:** *Andrew Wajs, Chief Technology Officer, Irdeto*
10:00 am	Break
10:30 am	**Software Protection for Dynamically-Generated Code** *Sudeep Ghosh, Jason Hiser and Jack W. Davidson*
11:15 am	**String Oriented Programming: When ASLR is Not Enough** *Mathias Payer and Thomas R. Gross*
12:00 pm	Lunch
2:30 pm	**Keynote Address: Fast location of similar code fragments using semantic 'juice'** *Arun Lakhotia, University of Louisiana at Lafayette*
3:15 pm	**Kernel Mode API Spectroscopy for Incident Response and Digital Forensics** *Viviane Zwanger and Felix C. Freiling*
4:00 pm	Break
4:30 pm	**BinSlayer: Accurate Comparison of Binary Executables** *Martial Bourquin, Andy King, and Edward Robbins*
5:15 pm	**Panel Discussion / Adjourn**
